ODE

Writen for the celebration of the Thirty Sixth Anniversary of the New England Society of New York, Dec. 22, 1841.

av nures blyes.

Sons of New England sires! Why do your altar fires
Flame up on high:
Why from your festal board,
Wakes the load anthem, poured
Joyous with one actord,
Winged for the sky ?--

11. Not for the voice that spoke Triumph—when Britam's yoke Bar t with your chains; Not for the heroes brave, Bleeding by Changes's wave, Not for the patriot's grave, Wake ye your strains :-

111.0 But for the Pilgrimban I,
They who from Levnes's land
Dared the rough sea;
Braving the ocean vast,
Scotting the watry blast,
So they might find, at last, Room for the free.

IV. Harl, how the thunder peals ! See, how the brave stip reels,
Whitled in the brine!—
Courage!—the Goo that wears
Storat robe-, the good man spares;
Pilgrim!—the hears your prayers,—
Joy to your line!

V. Nobly the May Flower bows, While the dark wave she plows On to the west; Till, from the tempest shock, Proudly she lands her flock,— Where on old Prynogra Rock, Freedom found rest.

VI. Lo! from you starry sphere, Spirit- in light appear, Glarious, but few ;--Pilgrims !-we see you now-Fathers! -- to you we how --Henr, then, your children's yow, Still to be free!

VII. Join, brothers, heart and hand, Sons of the Pilgrim band, Swear now to be All that your fathers sought,-All that the r victor wrought -So shall your sons be taught How to be free!

THE MORAL COURAGE OF PAUL.

arguments, or conciliate the pride of his audi. | poor man's lips. thought for a dialectical evasion. And though had fallen upon her features. no corresponding results were immediately obvious, yet convictions were planted there which

RELIGION.

WE have seldom read a more finished description of this heavenly principle in easy language, than the following, extracted from the English Monthly Review:

"Religion-the messenger of heaven, dwells not exclusively in cells or cloisters; but goes forth among men not to frown on their happiness but to do them good. She is familiar and cheerful at the table and firesides of the happy; she is equally intimate in the dwelling of poverty and sorrow; she cucourages the innocent in hymn or psalm.

And, at these words, the father could not that the practice of buring the horns and on the venerable front of age; she is found to on the venerable front of age; she is found to on the venerable front of age; she is found to on the venerable front of age; she is found to on the venerable front of age; she is found to one after the other, they all continued goon the venerable front of age; she is found too, at the hedside of the sick, when the attendance ing up to the bed-side, and then coming away which the boy meanest in age to the dying disease called the horn-ail, which is so very at the bedside of the sick, when the attendants have ceased from their labor, and the heart is almost still; she is seen at the house of mourn-

Dickers, in his last number of Barnaby Rudge, gives us the following as a "maiden

much injured lover:

MOSS-SIDE.

GILBERT AINSLIE was a poor man; he for Heaven. had been a poor man all the days of his life,

landing of the Pilgrims, was this year got up in fine style. The great hall of the Astor House dined nearly 300 ladies and gentlemen. The tiet ets were in the highest demand, though not a drop of ardent spirits with their father in the fields. Out of doors ways does in awe, but not in terror. or wine was permitted. The Oration was by Profestor in, Gilbert Ainshe was never idle. The or wine was permitted. The Oration was by Protest of it, Critical Artificial States of Haddock, of Dartmouth, which we find reported spade, the plough-shaft, the sickle, and the dreamy delirious phantasics in the brain of at length in the Express. The Rev. Dr. Spring and flail, all came readily to hands that grasped the innocent child; but the few words she in-Dr. Wainwright acted as Chaplains. Joseph Hoxsic, them well; and not a morsel of food was distinctly uttered were affecting not rending eaten under his roof, or a garment worn to the heart, for it was plain that she thought there, that was not honestly, severely, nobly berself herding her sheep in the green, silent earned. Gilbert Ainslie was a slave, but it earned. Gilbert Ainslie was a slave, but it pastures, and sitting wrapped in her plaid upon the sunny side of the Birk-knowe. She affection. The thraldom under which he lived God had imposed, and it only served life-too little breath in her heart, to frame to give his character a shade of silent gravity, a tune; but some of her words seemed to be but not nustere; to make his smiles fewer, but more heartfelt; to calm his soul at grace er wept, and turned aside her face, when before and after meals; and to kindle it in the child, whose blue eyes were shut, and morning and evening prayer.

There is no need to tell the character of the beautiful twenty-third psalm: the wife of such a man. Meek and thoughtful, yet gladsome and gay withal, her hands helped to bar the door against want. Of ten children that had been born to them, they had lost three; and as they had fed, clothed and educated them respectably, so did they give them who died a respectable funeral. The living did not grudge to give up, for a two sons were farm-servants in the neighremained at home, grown and growing up, a small, happy, hardworking household.

thous cotagers as were now beneath its roof of straw. The eye of the passing traveller for after your day's travel and toil of in-

The appearance of Paul before the Arcopagus indeed; and when the little brown moorland what alarmed at the flushed face of the pow- your sons now lather, said the oldest, -of Athens, involved an exhibition of moral cour- birds were singing their short songs among criul steipling, threw down the letter and "You may hold the plaugh stell, for you draw age that has seldom been equalled, and perhaps never surpassed, in the history of man. He lured thither through some green barley field. Gilbert took the letter from his son's band, work for young sinews; and you may six practised among our best farmers. I vil

future fame. He was there to unfold, to fortify, and river upon the judgment and conscience of bis unfoldered auditors doctrines steamed and carnations, brought from walled be unfoldered auditors doctrines steamed and carnations, brought from walled be unfoldered auditors doctrines steamed and the setting of the stars, that the rising and the setting of the stars, that the rising and the setting of the stars, that his enlightened auditory, doctrines at variance gardens of rich men farther down in the culwith every previous conviction and present impulse; doctrines totally subversive of that faith minished losture; a bright show of talips had incurred, and punctually paid when due, is who had lair down for an hour or two in bed of wheat he has ever reised. All the heads in which they were born; in which their fathers a strange beauty in the midst of that moor- no dishonor. - Both his hand and his voice could reaccely be said to have slept; and were about the same size, the straw even, and died, and which they wished to bequeath to land; and the smell of roses mixed well with shook slightly as he spoke; but he opened when about morning, little Margaret awoke, no part seemed to have the advantage from that of the clover, the beautiful fair leaves the letter from the lawyer and read it in significant that loves the soil and the air of Scotland, and gives the rich and balmy milk to the soil and the air of Scotland.

At this moment his wife came from her with meaning in her eyes, memory in her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland.

At this moment his wife came from her was sometiment to be soil and the air of Scotland. He had no splendid and imposing forms of that loves the soil and the air of Scotland, lence, He had no splendid and imposing forms of worship, or mythological mysteries, to aid his and gives the rich and balmy milk to the solution and the sir of Scotland, lence, ble to turn berselt on her lowly bed, but west. And here I will express a wish that with meaning in her eyes, memory in her with meaning in her eyes, memory in her lowes will make his views and exper-

ence. He had no temples, stalues, or altars, to substitute for those which he would make dose.

In this cottage Gimer's youngest chan, a girl about nine years of age, had been lying money, that no man, who knew him, would broke over her features; and never dat one this matter. I he leve if this practice should be a large transfer of this matter. substitute for those which he would make desorbly be adopted generally, by the farmers of this be adopted generally, by the farmers of this late. He had no dvinities peopling each hill for a week in a fever. It was now Satur-day evening, and ninth day of the disease. Though dear me, it is crued to be put to it and vale, and grove and font, to take the place Was she to live or die? It seemed as if but thus, when our bairn is dying, and when, if them all with a gaze of thir and sweet beof those whom he disclaimed. He had only the a few hours were between the innocent creation in the contract of pure abstract conception of one Supreme, hely and self existent God; his universal providence and self existent God; his universal providence the suproaching death. The purents went before her. Gilbert continued reading grave. and man's thus accountability. He delivered his message as one raised by his mighty theme him man face, whether it be infancy, youth or could be discovered; and then, folding it Dn. FRANKLIN's TOAST.—Long after Gen above the frown, or the commendation of his prime, just before the departure of the spirit; up, he gave it to his wife told her she might Washington's victories over the French and hearers. He was too clear and impressive for and as they stood together by Margarer's read it if she chose, and then put it into his English had made his name familiar over all the sceptical jest, and too cogont and massive in bed, it seemed to them that the fatal shadow desk in the room, beside the poor dear barn. Europe, Dr. Franklin chanced to dine with store made. The improvement is

distant, but they expected him now every her ear towards her child, and thinking she following toasts were drank; struck at length into the very heart of Greece; and many a wistful look was directed by tearful eyes along the moor. The Another hour of trial past, and the child — The sun, whose beams collished and fruction for the control of the country of the and which finally enthroned a forsaken God daughter, who was out at service, came anx. was still swimming for its life. The very tify the remotest corners of the earth. upon the affections and allegiance of a repeniously home on this night, the only one that dogs know there was grief in the bouse, and The French Ambassador, glawing with

but a deep, constant, and common feeling of this world's hardships, and an equal particivow" to "love, honor, and chey" her true but pation in all those struggles by which they who had for many years brought peace and or blood in the back or loins, and arises may be softened, unite husband and wife, resignation hither, when their hearts had principally from the cattle being at grass may be softened, unite husband and wife, resignation inther, when their hearts had parents and children, brothers and sisters, in been tried, even as they now were tried, during the summer on lots which are very thoughtful and subdued tenderness, making stood beford them. On the night before the dry and without shade, and from their being thoughtful and subdued tenderness, making "And now, at last, if you were sick and thoughtful and subdued tenderness, making tored in your every limb, ailing, weak a tored in your every limb, ailing, weak a thoughtful and subdued tenderness, making them happy indeed while the circle round them happy indeed while the circle round the first subtraction and to great cold in winter time; there are various every day to bear the separation, when some sick or the dying bed. Scarcely could Gil

Another knees, that she had been sewing for the dear darkness, making the dreariness beautiful. of the daughters came in from the potato-field child, and still continued at the hopeless. Dr. Franklin then rose, and with his usual beyond the brae with what was to be their work, she scarcely knew why; and often dignified simplicity said, "George Washfrogal supper. The calm, noiseless spirit of potting up her hand to wipe away a tear .- ington-the Joshua, who commanded the life was in and around the house, while death 'What is that?' said the old man to his eld- sun and moon to stand still, and they obeyed seemed dealing with one who, a few days est daughter: 'What is that you are laying him."- Anon. ago, was light upon the floor, and the sound on the shelf? She could reply that it was a of music, that always breathed up when most ciband and every comb that she had bought wanted; glad and joyous in common talk- for little Margaret, against the night of the

now waxing gray. He had been born and who, on his wearied horse had just arrived her tears within her heart another gave a following mode of cure, tried by me a good bred on the small moorland farm which he from another sick-bed, over the misty range short palpitating shrick; and the tender-many times with success: now occupied; and he hoped to die there, of hills; and had been looking steadfastly hearted Isahel, who had nursed the child When an animal is observed to be sufferas his father and grandfather had done be- for some minutes on the little patient. The when it was a baby, fainted away. The ing from this disorder, one or two quarts of fore him, leaving a family just above the humane man knew the family well, in the youngest brother gave way to gladsome blood, according to the size of the unimal, more bitter wants of this world. Labor, midst of whom he was standing and replied, smiles; and, calling out his dog Hector, us- are to be drawn immediately from a neck hard and unremitting, had been his lot in while there is life there is hope; but my pretty ed to sport with him and little sister on the vein; then two table spoonfuls of the followlife; but although sometimes severely tried, little Margaret is, I fear in the last extremity. moor, told the tidings to the dumb, irration- ing powder are to be given three times every he had never repined; and through all the There was no loud lamentation at these at creature, whose eyes, it is certain, spark- day the powder being previously dissolved

vented from striking the hours; but the siment, which unconsciously cheers the hearth- that was in the words of the skilful man their lent fingers pointed to the hour of nine; and

> A chapter was read-a prayer said t-and so too, was sung a psalm; but it was sung low, and with suppressed voices, lest the child's saving sleep might be broken; and now and then the female voices, trembled or some of them ceased altogether; for there and been tribulation and anguish, and now hope and faith were tried in the joy of thanksgiving.

The child still slept; and its sleep seemthat the flower was not to fade. 'Children,' said Gilbert, 'our happiness is in the love we sear to each other; and our duty is in subdeed has he been unto us. Is not the recov- nel. ery of our little durling, dancing, singing Margaret, worth all the gold that ever was mined? If we had had thousands, would we not have filled up her grave with the IMPORTANT IMPROVEMENT IN worthless dross of gold, rather than that she should have gone down there with her sweet mother by the bed-side, for it was said to be face and all her rosy smiles?" There was best so; and Gilbert and his family sat down no reply; but a joyful sobbing all over the

mournings worn on Sabbath, and then care- work. One of of the daughters went forth all some little things of our own, a few pounds tried an experiment, and knows by experi fully laid by. Of the seven that survived, with pail to milk the cow, and another began -and we shall raise enough to keep arrest to set out the table in the middle of the floor and prison at a distance. Or if they do take borhood, while three daughters and two sons for supper, covering it with a white cloth, our formtore out of the bouse, all except Marments with a solemn and untroubled eye; the floor; and are there no potatoes in the Many cottages are there in Scotland like and there was almost the faint light of a field, and clear water in the spring. We Mose-side, and many such humble and vir- grateful smile on his cheek as he said to the need fear nothing, want nothing; blessed be

stand peacefully in thousands over all the land; and most beautiful do they make it through all its wide valleys and narrow glens and Gilbert, fifted up his toil-hardened, but large of her child. This latter, Common the land in the land is wide valleys and narrow glens. through all its wide valleys and narrow glens—its low homes encircled by the rocky walls of some bonny burn—its green mounts clated with their little crowning groves of palm trees—its yellow cornfields—its bare, pastoral bill-sides, and all its heathy moors, on whose black boson lie shining or concealed, glades of excessive verdure, iniabited by flowers, and visited only by the far-flying bees.

Moss-side was not beautiful to a careless or hasty eye; but when looked on and surveyed, it seemed a pleasant dwelling. Its roof, overgrown with grass and moss, was almost as green as the ground out of which its

child's bed-side and looking anxiously at her heart, and coolness in all her veins, a luppy lience on this subject known to the public, In this cottage Gilbert's youngest child, a lossband, told him 'not to mind about the group were watching the first faint smile that as he can speak from his own experience in
